

¿Porqué unirse al Programa de Mantenimiento de Geomagic Design X?

El Programa de Mantenimiento de GEOMAGIC de 3D Systems® es una plan de protección todo-en-uno, diseñado para que tu empresa se asegure que siempre estará trabajando con las últimas y más eficientes actualizaciones de las diferentes versiones del software, así como también te aseguras que tendrás prioridad de acceso a soporte técnico. El Programa de Mantenimiento de Geomagic es un enlace crítico en la cadena digital, el cual está diseñado para ayudarte a ser siempre productivo y competitivo en un, cada vez más competido, mercado global.

Stay on the Cutting Edge

Our engineers are constantly working to improve our software and, as we release upgrades, you will receive full access to all updates and improvements for free. These updates include bug **fixes, user-requested enhancements, new version releases and new plug-ins**. Stay competitive in your industry by having access to the latest tools and technology. These new features and functionalities are necessary to keep your software running in peak condition. Geomagic maintenance programs help ensure a smooth and **uninterrupted workflow**.

We are working faster than ever, and have put a focus on releasing smaller **releases more frequently, as much as every quarter over this year and into the future**.

Be the First to Experience Innovation

Since its inception, 3D Systems has **taken a customer-centric approach** to innovation –collaborating with its customers to understand their application needs and developing solutions to address them. A framework for early feature and capability preview is now available for customers on maintenance only. Through this framework, customers are invited **more efficiently into the R&D process - providing early access to innovations** and the ability to share feedback. Additionally, this new plugin structure **enables 3D Systems to quickly gather customer support requests – and in many cases more efficiently delivering** support for customers' business critical needs.

Arm Yourself with a Team of Experts

The Geomagic technical support team **help you stay productive and efficient** with preferred technical support **services. With unique access to our technical support team, you'll never get stuck, and you'll enjoy top-quality one-on-one assistance via telephone, web meetings or through data collaboration systems**. Our team is ready to help with licensing, menu commands, installation and general troubleshooting as well. They're also able to solve your problems **quickly by helping you navigate our high-volume Knowledge Base. Please** visit the support website, <https://support.geomagic.com>, for more information.
